

CALL FOR

artistic residency

MusVerre, Sars-Poteries

The MusVerre offers an artistic residency program at the Atelier du Verre, open to any glass artist regardless of their territory of residence.

Through this program, the MusVerre wishes to encourage creativity in the glass field and allow the resident to concretize artistic projects possibly involving other mediums, glass remaining however the anchor point.

The exhibition that will follow the residency period is seen as a proposal allowing different audiences to access the artist's approach : it will result in various mediation, discussion and meeting projects.

This residency will take place between September and December 2021, for a maximum duration of 70 days.
